ONGOING RESEARCH

2016-Present

“Park in a Truck” is a design/build community-operated green network, established through low-cost, fast-turn around renovations of vacant lots, that improve environmental, social and physical health in low-income neighborhoods. MakeIT toolkit published, 2.0 version on the books.

Southwest Community Garden 2016-Present

In collaboration with Public Health, we are assessing, through improvements to an existing community park and streetscape, the benefits of an environment that supports physical and mental health.
